

Our entire family of 6 people, ages 6-45, all love to listen to K-Love. Great words to great upbeat music, encouraging, prayerful, supportive & a blessing. I love it that my teenagers want to listen to this type of music instead of some of the other alternatives. If the LPFM were to displace stations like K-Love, other types of messages would be coming into our home & cars. A lot of local people listen to this station and get encouragement from K-Love. It helps when you're happy and also brings you up when discouraged. A lot of music can't do that. Please keep stations like K-love on the air. It really is a needed type of outreach not only to regulars, but those discouraged and needing help. It really does reach a lot of people nationwide. Susan Dekker
& needing help.
